The most important feature you should get is a description of yourself. As you can see, your Profile contains a whole lot of information about you, including your interests and what you talk about, including your religious or religious views. For example, if you are interested in yoga, you have to include details about why you do yoga, your personal beliefs about the practice, and a summary of the many types of activities yoga can entail. If you believe yoga benefits you physically, that description, along with your physical workout regimen, can help confirm you are an active individual, in tune with the yoga practice and your needs.

Your Profile makes you unique. Your profile is your identity and identifies who you are. It is more than a snapshot of self—it is your biography, your history and your personal future.. Internet Explorer 5 & 6 - Unavailable Start Firefox and click Tools. Click about:config. Under Advanced, click Browser tab. Click Internet Explorer 5 or above. Select Run as Administrative Administrator. Under Web Information Options, click Customize for the type of security profile Internet Explorer 5 or lower should be installed by. Click Next. Under Add security profile, select Disabled. Under Disable for now, enter 'No' and click Next. Under Test the Internet Explorer version, click the Tools button. Make sure you have Internet Browser installed by clicking Add. If it says: Internet ExplorerThis is the first article in a series on creating a personal online profile to reveal who you are.
